

Safe Discharge Home

(Acute/ Aged Care Interface)

Friday 9th September 2005

Chair: Lenora Lippmann

Objectives

1. To explore common issues in the aged care/acute hospital interface that affect safe referral home for residents
 2. To recommend actions that will improve continuity of care for residents on referral home from in-patient care
 3. To be up to date on State and National developments affecting the Aged Care Program
 4. To share ideas with each other of effective GP panel work
-

10:00
