

Agenda *for* CEO Network 9 December 2004

Time	Background & content	Action
9.00am	Registration	
9.30am	Welcome and outline of the day's program	Helen Threlfall, Team Leader Division Capacity
9.35am	The RACGP has prepared a report <i>The Conspiracy of Silence</i> on the emotional health of GPs. The College is currently seeking funding for a Peer Support Program, and may suggest a role for divisions. The purpose of this item is to consult CEOs about what, if any, role divisions are willing to play in such a program.	Raymond Martyres, RACGP, will give a brief overview of the proposal and seek feedback from CEOs.
10.05am	GPDV represents divisions on a statewide basis, and a key part of that work is influencing the direction of the State government's primary care reform policy. This item will give CEOs a status report on the work with DHS, including PCPs, Community Health, Hospital interface etc.	Presentation from the GPDV CEO, Bill Newton. Questions, discussion
10.45am	Morning tea	
11.15am	The Divisions Review has confirmed that divisions need to take a whole of practice quality improvement approach. To do that effectively will require capacity to collect and analyse data, both about the practices within a division and the inputs from the division. The last CEO network identified the need for an effective and easy to use database for this purpose.	Mark Smith from Polymorphic and Brett Silvester, Brisbane North Division of General Practice will provide an overview and online demonstration of the Brisbane North Division Information System.
12.30pm	GPDV is seeking a first response to a draft planning & reporting tool for divisions currently being developed for DoHA by PCHRIS.	Susan Webster, Quality Team Leader
12.45pm	Lunch	
1.30 pm	Update from Department of Health & Ageing	Soriya Suong, Assistant Director, Health Strategies, State Office.
1.40 pm	In order to plan effectively for population health, to evaluate division work, and to report on this work, the last CEO network discussed the accessibility of data from external sources. The meeting identified a range of data that were not conveniently accessible (or accessible at all in some cases) to divisions. An update will be presented on work by the Commonwealth to provide access to a range of population health data.	Belinda Caldwell, GPDV Population Health Consultant and member of the DoHA Working Party on Population Health Data. Speaker from DoHA Canberra (TBC)
2.00 pm	Currently there is pressure on divisions to ensure that they are operating legally when the common rule awards come into force from 1 st January. Divisions have been moving to implement EBAs and/or AWAs, but have found it difficult to obtain sufficient information to make decisions.	Update from VHIA Speaker TBC.
2.45pm	The 2004 ADGP Forum was evaluated through <i>ultrafeedback</i> and results are now available. ADGP have been invited to present the feedback and there is an opportunity to contribute to discussion about future Forums.	Liesel Wett, Deputy CEO, ADGP.
3.20pm	The Review Implementation Committee will have met three times since the last CEO network meeting. An update will be presented about progress by the Committee.	Bill Newton, CEO, GPDV,
4.00pm	Close of meeting
