

RDQO PROGRAM

Regional Data Quality Officer
Stephen Pellissier

RDQO PROGRAM

- Complement the Victorian ACIR state field officer;
- Identify problems of data transmission to the ACIR;
- Identify service provider gaps;
- Provide feedback to DHS, Victoria for purposes of the development of the public sector immunisation software.

RDQO PROGRAM

- provide promotion of activity to stakeholders.
- identify sustainability issues including: systematic data input/transmission errors (what, who, how rectified?); system issues impacting on timely reporting and reconciliation of ACIR data and broader ACIR data reporting and quality issues.

RDQO Models

- Various models encouraged
 - DHS
 - Divisions
 - Divisions/LGA

Issues

- Rural versus metropolitan
- Ownership
