

Immunisation Network

Thursday 28th April 2005

Convenors: Belinda Caldwell & Michelle Wills

Workshop Aims:

- Participants will feel confident in communicating up to date immunisation information
 - Participants will understand the implications of the introduction of IPV and Varicella onto the nationally funded childhood immunisation program
 - Participants will understand the issues surrounding the use of dataloggers for cold chain management
 - Participants will have had the opportunity to share ideas with other participants
-
