

Managing COPD - There is something you can do!

PROGRAM OVERVIEW

This two day program is designed for GP's and other health professionals who want to improve their understanding of and update their knowledge in the current treatment and management of COPD.

PROGRAM OUTLINE

The program will give you the latest information on:

- The COPDX treatment plan
- Difference between chronic bronchitis & emphysema
- Dealing with exacerbations
- Role of spirometry
- Management options
- Pulmonary rehabilitation
- Smoking cessation
- Home O2 therapy
- Respiratory medication device use
- Psychological effects of COPD
- Living with a chronic disease
- Nutrition issues
- Management of end stage lung disease
- Panic attack action plan

WHO SHOULD ATTEND

The course is open to currently registered health professionals who are interested in increasing their knowledge and gaining skills in this area.
