

Performance Indicators for 2008-2012 (and the key role of practice nursing)

12 June 2008

New Contracts & Pls: Practice Nursing Central to Success

- Multi-Purpose Agreement (Core funding)
- Primary Care Integration (PCIP)

New MPA KPIs: Focus

- Access
- Prevention
- CDM
- Uptake of National Initiatives
- Local Priority

Access

- **# & % of PIP practices claiming for PN services**
- **10993 – Immunisation**
- **10994 – Pap Smear & Health Check**
- **10996 – Wound treatment**
- **10997 – CDM by PN or AHW**
- **10998 – Pap Rural**
- **10998 – Pap Smear**

Access

- # of ATSI child and adult health checks provided by GPs compared to the estimated population who could benefit from the health check items

OR

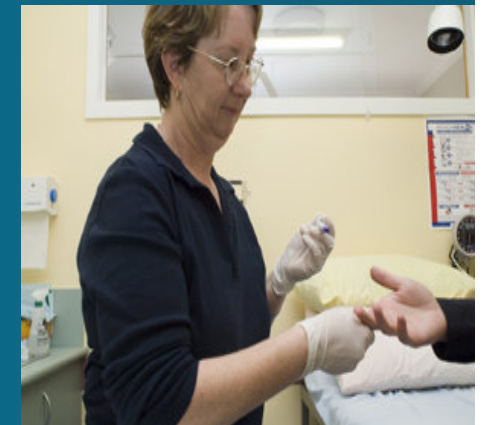

- The indicator can be modified to target other specific population groups for which the division has quality data (eg. the aged, the disabled..)
- *Data sources –MBS/DoHA

Prevention

- # 45-49 yo Health Checks (cf. est. suitable population)
- Immunisation rates at 60-63 months
- # & % of electronic transfers to ACIR
- # & % of female patients 20-69 with pap smear in last 2 years
- *Data sources – 1-3 MBS/ACIR/DoHA, other division records 4-patient records

CDM

- # & % Register & recall systems in 80% practices (at least 3 diseases, electronic or not)
- # patients with diabetes meeting various HbA1c measures-data from at least 10% of GPs
- # of patients meeting BP measures from 10% of GPs

*Data sources – R&R-division records, others, APCC or practice visits or other method of obtaining data

Uptake of national initiatives

- # & % of GPs preparing and reviewing GP Mental Health Care Plans
- # & % of GPs providing focussed psychological strategies
- # & % of accredited general practices

- *Data sources – 1-2 MBS/DoHA, 4 AGPAL & GPA

Local Indicator

- To be set for the four year funding cycle, must be a challenge, sound program logic
- Up to 3 optional local indicators, can be changed annually

PCIP (ABHI) Indicators

- # & % of GPs claiming MBS GP Management Plans, Team Care Arrangements, and Multidisciplinary Care Plans items (721 – 731)
- # & % of AHPs claiming Allied Health Services MBS items (10950 – 10970 and 81100 – 81125)
- # & % of GPs claiming case conferencing items (734 – 779)
- # & % of GPs claiming Medication Management Review items (900 and 903)

Practice Nursing Roles & Pls: Issues

- Nurses trained to perform items
- Divisions know their nurses and their capacity
- Systems established in practices to allow claiming
- GPs understand PN roles
- Register/recall and reminder systems
- Referral systems and linkages
